Optional Workshops & Seminars

Optional Satellite Lunch Program: Understanding Legal Tools: The Key to Lawsuit Prevention & Tax Reduction
Tuesday, July 1, 2014 From 1:15 to 2:15 pm FREE for registered conference attendees

As the prevalence of lawsuits against Family Physicians rises, so do the judgment amounts. It is now more important than ever to learn the proper tools to protect yourself from lawsuits. Learning objectives for this workshop include: maintaining the focus on improved patient care rather than malpractice defense; structuring your practice for malpractice protection and prevention; ensuring 100% protection of your professional and personal assets from lawsuits; and reducing malpractice insurance costs and taxes to help keep your patients’ costs down. This lunch program is free to registered conference attendees only. Guests / spouses may not attend. Advanced registration is required.

Optional CME Workshop: Advanced Hands-On Procedures Seminar: Joint Injections & Aspirations
Tuesday, July 1st from 2:15 to 5:15 pm (Additional fees will apply for all attendees - Limited Seating)

Participants will gain insight to the benefits of adding joint injections and aspiration procedures to their practice with this popular and helpful workshop opportunity. During this Advanced Hands-On Procedures Workshop, family physicians, FNP’s, PAs and PAs will learn the value of offering this service to their patients, instead of referring them out of the practice. Learning objectives include: List the indications and contraindications of joint injections and aspirations; Demonstrate ultrasound to assist tissue injections and aspirations; Listen to the challenges and opportunities presented with ICD-10-CM; This day will focus on several important and timely practice management topics for today’s family physician. This day will begin by recognizing the challenges and opportunities presented with Coding and The Transition to ICD-10. This will be followed by Setting the Stage for Value Based Payments. The third session will focus on Practical Aspects & Changes for your Practice with Population Management. A fourth session will be on Creative Optimization of Office Workflow, followed by another session on Alternative Payment Models. We will end the afternoon with a lively panel discussion with representatives of the physician community sharing their experiences and insights on the day’s topics.

SAMs Study Group - Well Child Care
Friday, July 4th - 7:30 am - 2:30 pm

This year’s SAMs Study Working Group will review childhood growth, development, and more through this one-day session.
